## **KATA PENGANTAR**

Puji syukur saya panjatkan kepada Tuhan Yang Maha Esa atas segala rahmat dan karunia-Nya, sehingga saya dapat menyelesaikan tugas praktikum ini dengan baik. Tugas praktikum ini disusun untuk memenuhi salah satu syarat dalam mata kuliah sistem operasi dengan materi PRAKTIKUM KONFIGURASI JARINGAN yang dilaksanakan pada Semester 1 dengan tujuan untuk mendalami dan memahami konsep-konsep praktis yang telah dipelajari selama perkuliahan.

E325: ATTENTION

Found a swap file by the name "/var/tmp/interfaces.swp"  
    owned by: root   dated: Fri Jan 9 15:01:58 2026  
    file name: /ect/network/interfaces  
    modified: no  
    user name: root   host name: ubuntu  
    process ID: 1090

While opening file "/ect/network/interfaces"

- (1) Another program may be editing the same file. If this is the case,  
    be careful not to end up with two different instances of the same  
    file when making changes. Quit, or continue with caution.
- (2) An edit session for this file crashed.  
    If this is the case, use ":recover" or "vim -r /ect/network/interfaces"  
    to recover the changes (see ":help recovery").  
    If you did this already, delete the swap file "/var/tmp/interfaces.swp"  
    to avoid this message.

Swap file "/var/tmp/interfaces.swp" already exists!
